

Krutika Khenat

Generative AI Engineer · ML Developer · B.Sc Data Science (2026)

krutikakhenat9@gmail.com · +91 9920435307 · Thane, Maharashtra · [linkedin.com/in/krutika-khenat-ai](https://www.linkedin.com/in/krutika-khenat-ai) · github.com/krutika-khenat

SUMMARY

B.Sc Data Science graduate with hands-on experience building end-to-end AI applications. Delivered a RAG-based chatbot integrating FAISS vector search, Sentence Transformers, and an LLM API. Comfortable across the full pipeline — data ingestion, model training, prompt engineering, and deployment via Streamlit. Looking for a Generative AI or ML role to build production-ready intelligent systems.

TECHNICAL SKILLS

Languages	Python, SQL, R
AI / ML	LLMs, RAG Architecture, Deep Learning, TensorFlow, Keras, Scikit-learn, Model Training & Evaluation
NLP & Search	Sentence Transformers, FAISS, Vector Embeddings, Prompt Engineering, OpenRouter API
Tools	Streamlit, Jupyter Notebook, VS Code, Git, GitHub, MySQL

PROJECTS

AI Customer Support Chatbot

Python · FAISS · Streamlit · LLM

- Built an end-to-end RAG pipeline covering document ingestion, text chunking, and embedding generation using Sentence Transformers.
- Integrated FAISS for semantic vector search and OpenRouter API for context-aware LLM responses with prompt engineering.
- Deployed an interactive Streamlit interface for real-time document Q&A — github.com/krutika-khenat/ai-customer-support-chatbot

Crop Disease Detection System

Python · TensorFlow · CNN

- Trained a CNN model on a multi-class labeled dataset to classify crop leaf diseases, evaluated with precision, recall, and F1-score.
- Built a preprocessing pipeline (resizing, normalization, augmentation) and a user-facing interface for real-time image prediction.

github.com/krutika-khenat/Agriscanguru

Smart Saathi — Voice Assisted Accessibility App

Python · NLP · Multilingual

- Built a voice-assisted app enabling low-literacy users to access digital forms and government services in Hindi, English, and Marathi.

EXPERIENCE

Deloitte — Data Analytics Virtual Internship

Virtual · 2024

- Completed industry-simulated analytics tasks: data interpretation, pattern analysis, and business reporting on structured datasets.

EDUCATION

B.Sc Data Science — Mumbai University

2023 – 2026

SGPI: 9.85 / 10.00
